

DULONG

FINE JEWELRY

SIZE GUIDE

NECKLACES

Dulong Fine Jewelry necklaces are available in various sizes.

The perfect size of a necklace depends on neck and bust size. We are all built differently, and our neck size can vary just like all other body parts as we age or change weight.

To ensure the best fit of your necklace – take a piece of string or yarn around your neck and adjust the length in front of a mirror to the perfect fit. Measure the length of the cord with a tape measure or ruler. Now you have the size of the desired length.

The drawing above shows the indicative length guides for necklaces – but be aware that the length may still vary according to neck and bust size.
